

Jobbing Machinist - Fitter

Career Opportunity:

Brunette Industries Ltd is a leading supplier of wood processing machinery for the Biomass/pellet, and forestry industries.

Description

A Jobbing Machinist position is available in our New Westminster, BC manufacturing facility. The Machine Operator position utilizes skills and knowledge to perform and maintain all machining processes efficiently within manufacturing team. The principle equipment to be operated will be the **lathes, milling machines, key seaters, radial drill and grinding machines.** However, the successful candidate must also have proficient skills operating other shop equipment.

Responsibilities

- Operation of all shop equipment.
- Enhances machinery performance and prevent machine downtime with routine preventative maintenance.
- Produce finished product from blueprints
- Calculate and set controls to regulate machining factors such as speed, feed, depth, and angle of cut to meet specifications on machine drawing
- Determine dimensions and tolerances of finished work piece
- Document and communicate manufacturing process actions and irregularities (e.g. continual tool changes, dirty collets, or machine alarms going off) to maintain continuity and decrease machine downtime
- Use precision measuring devices, perform quality checks.
- Capable of doing set-ups of capital equipment work as well as a wide variety of jobbing work quickly, safely, and efficiently.
- Operator must be able to execute work with minimal assistance, and in a timely fashion.
- Willingness to work overtime when required to meet customer needs

Qualifications - Required

- High School Diploma or equivalent
- Basic math/trigonometry an asset
- Good written and verbal communication skills
- Basic computer skills
- B.C. Machinist Certified

Physical Demands

- Ability to lift 50 pounds
- Comfort working in a manufacturing environment
- Standing for long periods of time
- Ability to climb up and down large machinery
- Repetitive motion

Competencies:
